Covid Policy Update and Addendum

1/10/22

The following isolation and quarantine guidelines updates have been approved by both the CDC and the State Department of Health. Please remember that contact tracing, isolation of positive cases, and quarantine of close contacts are all control measures that are part of Indiana's communicable disease laws and must be followed.

If a student tests positive:

- Stay home for 5 days
- Return to school on day 6 if asymptomatic or symptoms are resolving
 - Must be fever free for 24 hours without use of fever reducing meds
- Wear a mask day 6-10 in the classroom and when around others (even outdoors).
- May resume extracurricular activities on day 6 if able to wear a mask at all times for days 6-10 and cleared by a physician.

If a student is exposed to someone with COVID-19 at school:

- As long as the student is asymptomatic, they may remain in school and continue to wear a mask at all times for 10 days, take a COVID test on day 5, if possible.
- May continue extracurricular activities but must wear a mask anytime they are not actively performing in an activity (ex: on the bench or sideline, team meetings, etc...)
- If symptoms develop, get a test and stay home if positive. If test is negative, return to school when symptoms have resolved.

If a student is exposed to someone with COVID outside of the classroom, including at home:

- *If fully vaccinated:*
 - If they remain asymptomatic, they can remain in school and continue to mask at all times in classroom and when around others; test on day 5 if possible.
 - May continue extracurricular activities; wear mask for 10 days. Unmask only when actively playing or performing.
 - If symptoms develop, get a test and stay home. If positive, follow isolation guidelines. If negative, return to school when symptoms have resolved.
- *If unvaccinated or partially vaccinated:*
 - Stay home for 5 days; test on day 5 is possible
 - Return to school day 6 if asymptomatic. Wear mask for day 6-10

- May resume extracurricular activities on day 6 if able to wear mask at all times (including when performing or playing)
- If symptoms develop, get tested and stay home. If positive, follow isolation guidelines. If negative, return to school when symptoms have resolved.

If masks are not worn and a student or staff is exposed to someone with COVID:

- *If fully vaccinated (received all doses, including booster, if eligible)*
 - May remain in school as long as continue to remain asymptomatic
 - Wear mask at all times in classroom for 10 days after the last day of exposure. Test on day 5 if possible.
 - Can continue extracurricular activities; mask at all times while not actively performing or playing
 - If symptoms develop, get tested and stay home. If positive, follow isolation guidance. If negative, return to school when symptoms have resolved.
- *If unvaccinated or partially vaccinated:*
 - Stay home for 5 days after the day of exposure to the positive case; test on day 5 if possible
 - Return to class on day 6 if asymptomatic, wear a mask at all times in classroom for at least 5 days.
 - No extracurricular activities for 5 days of home quarantine. May resume day 6 only if able to wear a mask at all times (including while actively performing or playing during the activity) for days 6-10.
 - If symptoms develop, get a test and stay home. If positive, follow isolation guidance. If test is negative, return to school when symptoms have resolved.

***Masks are still required on all school buses per federal mandate.

***If students wear masks **properly** in the classrooms no one needs to quarantine if they are identified as close contacts. They can continue to attend school and monitor for symptoms.
